A determination will be made in relation to each issue about whether, for the purpose of the Product Governance Rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Issuer nor the Arranger nor the other Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

Interest amounts payable on Notes with a fluctuating rate of interest (**Floating Rate Notes**) will be calculated by reference to a specific benchmark which will be provided by an administrator.

As at the date of this Prospectus, the specific benchmark applicable to an issue of Floating Rate Notes has not yet been determined. However, amounts payable under Floating Rate Notes may be calculated by reference to (i) EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute (**EMMI**), (ii) LIBOR (London Interbank Offered Rate) which is provided by the ICE Benchmark Association (**IBA**), or another benchmark.

As at the date of this prospectus, EMMI appears on the register of administrators and benchmarks (the **ESMA Register**) established and maintained by the European Securities and Markets Authority (the **ESMA**) pursuant to Article 36 of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8th June, 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the **Benchmarks Regulation**).

As at the date of this Prospectus, IBA does not appear on the ESMA Register. As far as the Issuer is aware, (i) the transitional provisions in Article 51 of the Benchmarks Regulation apply to IBA, so that IBA is currently not required to obtain authorisation or registration (or recognition, endorsement or equivalence).

The Final Terms will specify the name of the specific benchmark and the relevant administrator. In such case the Final Terms will further specify if the relevant administrator is included in the ESMA Register pursuant to Article 36 of the Benchmarks Regulation or whether the transitional provisions in Article 51 of the Benchmarks Regulation apply (in which case the relevant administrator would

not be required to obtain authorisation or registration or, if the relevant administrator is located outside the EEA, recognition, endorsement or equivalence).

In connection with the issue and distribution of any Tranche of Notes, the Dealer or Dealers (if any) disclosed as the stabilisation manager(s) in the relevant Final Terms (or persons acting on behalf of any stabilisation manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant stabilisation manager(s) (or persons acting on behalf of any stabilisation manager(s)) in accordance with all laws and rules.

All references in this Prospectus to **U.S. Dollars, U.S. \$, USD** and **\$** refer to the currency of the United States of America, those to **Sterling, GBP** and **£** refer to the currency of the United Kingdom, those to **Japanese Yen, Yen** and **¥** refer to the currency of Japan, and those to **Euro, EUR** and **€** refer to the currency introduced at the start of the third stage of European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended.

This Prospectus contains certain forward-looking statements. Forward-looking statements are statements that do not relate to historical facts and events. They are based on the analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "anticipate", "believe", "could", "estimate", "expect", "intend", "may", "plan", "predict", "project", "will" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earnings capacity, plans and expectations regarding the Issuer's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including the Issuer's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. The Issuer's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. Accordingly, potential investors are strongly advised to read the following sections of this Prospectus: "*General Description of the Programme*", "*Risk Factors*" and "*Description of the Issuer*". These sections include more detailed descriptions of factors that might have an impact on the Issuer's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Prospectus may not occur. In addition, the Issuer does not assume any obligation, except as required by law, to update any forward-looking statements or to conform these forward-looking statements to actual events or developments.

The Notes to be issued under the Prospectus may not be a suitable investment for all investors. Therefore, each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement hereto;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A prospective investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the prospective investor's overall investment portfolio.

The Final Terms will specify either that the relevant Notes (i) cannot be redeemed prior to their stated maturity (other than (unless otherwise specified in the relevant Final Terms) for taxation reasons or following an event of default), or (ii) will be redeemable at the option of the Issuer and/or the holders of the Notes (the **Holders**), as the case may be, upon giving notice to the Holders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer.

Presentation and prescription in relation to Notes:**Taxation of Notes:**

Unless otherwise set out in the relevant Final Terms, all payments of principal and interest (if any) in respect of the Notes will be made without any withholding or deduction at source for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by way of withholding or deduction at source in, by or within Germany or any political subdivision or any authority thereof or therein including bodies incorporated under public law (*öffentlich-rechtliche Körperschaften*) having power to tax, unless such withholding or deduction is required by law. In the event that any such withholding or deduction is made, the Issuer will, save in certain limited circumstances provided in § 7 (1) of the Terms and Conditions of the Notes, be required to pay to the Holders additional amounts to cover the amounts so withheld or deducted.

FATCA:

The Issuer is authorised to withhold or deduct from amounts payable under the Notes to a Holder or beneficial owner of the Notes funds for the payment of any tax that it is required to withhold or deduct pursuant to (a) sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986 or any associated regulations or other official guidance (the **U.S. Provisions**); (b) any treaty, law, regulation or other official guidance enacted in any other country, which facilitates the implementation of the U.S. Provisions (the **Foreign Provisions**); or (c) any intergovernmental agreement between the United States and any other country, which facilitates the implementation of the U.S. Provisions (the **Intergovernmental Agreement**); or (d) any agreement regarding the implementation of the U.S. Provisions, the Foreign Provisions and any Intergovernmental Agreement entered into by the Issuer, a paying agent or an intermediary with the U.S. Internal Revenue Service, the U.S. government or any governmental or taxation authority in any other country (together with the U.S. Provisions, the Foreign Provisions and the Intergovernmental Agreement, **FATCA**). The Issuer will not be required to make any payments of additional amounts for or on account of any withholding tax deducted by the Issuer, a paying agent or an intermediary in compliance with FATCA.

Early redemption of Notes for taxation reasons:

Unless otherwise set out in the relevant Final Terms, early redemption will be permitted in whole, but not in part, if on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts pursuant to § 7 (1) of the Terms and Conditions of the Notes as a result of any change in, or amendment to, the laws or regulations of Germany or of any political subdivision or taxing authority thereof or therein, or as a result of any change in, or amendment to, an official interpretation or application of such laws or regulations, which amendment or change is effective on or after the date on which the first Tranche of the relevant Series of the Notes is issued.

Events of Default:

The terms and conditions of the Notes will provide for the following events of default:

- the Issuer is in default, for any reason whatsoever, for more than 30 days in the payment of any amounts due under the Notes;
- the Issuer is in default in the performance of any of its obligations under the Notes and such default shall continue for more than 60 days after written notification requiring such default to be remedied shall have been given to the Issuer by any of the Holders through the Fiscal Agent;
- bankruptcy or court composition proceedings are commenced before a court against the Issuer which shall not have been dismissed or stayed within 60 days after the commencement thereof, or the Issuer institutes such proceedings or

suspends payments or offers or makes a general arrangement for the benefit of all its creditors; or

- the Issuer goes into liquidation unless such liquidation is to take place in connection with a merger, consolidation or other combination with any other entity and such entity assumes all obligations of the Issuer arising under the Notes and that the obligation of the liable stakeholders of the Issuer to offset losses of the Issuer will apply *mutatis mutandis* to such new entity.

Cross Default in relation to Notes: The terms and conditions of Notes will not contain a cross default provision.

Representation of Holders: In accordance with the German Act on Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*; the **Act on Debt Securities**) of 31st July, 2009, the terms and conditions of the Notes may contain provisions pursuant to which Holders may agree by resolution to amend the relevant terms and conditions (with the consent of the Issuer) and to decide upon certain other matters regarding the Notes. Resolutions of Holders properly adopted by vote taken without a meeting in accordance with the relevant terms and conditions are binding upon all Holders. Resolutions providing for material amendments to the relevant terms and conditions require a majority of not less than 75 per cent. of the votes cast. Resolutions regarding other amendments are passed by a simple majority of the votes cast.

In accordance with the Act on Debt Securities, the terms and conditions of the Notes may provide that the Holders may by majority resolution appoint a representative for all Holders (the **Joint Representative**). The responsibilities and functions assigned to the Joint Representative appointed by a resolution are determined by the Act on Debt Securities and by majority resolutions of the Holders. The Joint Representative may also be designated in the relevant terms and conditions.

Governing Law: The Notes will be governed by German law.

Place of Performance and Place of Jurisdiction: Place of performance and place of jurisdiction in relation to the Notes is Düsseldorf, Germany.

Risk Factors:

An investment in Notes to be issued under the Programme involves certain risks. A discussion of these risks is set out in the section entitled "*Risk Factors*". There are certain factors that may affect the Issuer's ability to fulfil its obligations under any Notes to be issued under the Programme. These are set out in the subsection entitled "*Risk Factors Relating to the Issuer*". In addition, there are certain factors which are material for the purpose of assessing the market risks associated with any Notes to be issued under the Programme and risks relating to the structure of Notes to be issued under the Programme. These are set out in the section entitled "*Risk Factors Relating to the Notes*".

RISK FACTORS

In purchasing the Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make payments due in respect of the Notes. The Issuer may not be aware of all relevant factors and certain factors which the Issuer may currently deem not to be material may become material over time and could likewise impair the business operations of the Issuer and have a material adverse effect on its business, cash flows, results of operations and its financial condition.

The Issuer has identified in the following subsection entitled "Risk Factors Relating to the Issuer" a number of factors which could materially adversely affect its business and ability to make payments due under any Notes.

In addition, certain factors which are material for the purpose of assessing the market risks associated with Notes to be issued under the Programme and risks relating to the structure of Notes to be issued under the Programme are also described below in the subsection entitled "Risks Relating to the Notes".

Prospective investors should consider these risk factors before deciding to purchase Notes to be issued under the Programme. In addition, prospective investors should be aware that the risks described below may combine and thus intensify one another.

Prospective investors should consider all information provided in this Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) prior to making any investment decision.

Words and expressions defined in the section entitled "Terms and Conditions of the Notes" shall have the same meanings in this section "Risk Factors".

Risk Factors Relating to the Issuer

As a matter of the nature of the Issuer's business it is exposed to the following risks, which are presented in the categories below depending on their nature with the most material risk factor mentioned first in each category.

1. Risks Relating to the Issuer's Business Activities and the Financial Markets,
2. Risks Relating to the Issuer's Financial Condition and Specific Situation, and
3. Legal, Regulatory and Tax risks and Other Risks.

1. Risks Relating to the Issuer's Business Activities and the Financial Markets

Credit Exposure and Increased Loss Provisions

Pursuant to EAA's charter as of 11th December, 2009, as last amended on 17th December, 2020 (*Statut*; the **Charter**), EAA was set up to wind-up the portfolio of risk assets and non-strategic businesses/assets that comprised loans, public finance securities, other tradable securities and structured credit products which were acquired from WestLB AG (now: **Portigon**) and its subsidiaries. Hence, the Issuer's business consists almost entirely of administering distressed and non-strategic financial assets acquired from Portigon and Portigon's subsidiaries with a view to releasing Portigon and Portigon's subsidiaries from, in particular, the credit risk attributable to such financial assets, and is thus subject to the risk that debtors of such assets and other contractual partners may become unable to meet their obligations *vis-à-vis* the Issuer (including, but not limited to effects following from the outbreak of COVID-19 (as further described in the subsection entitled "*Pandemic Outbreak of SARS-CoV-2 ("COVID-19")*").

Such defaults may arise from events or circumstances that are difficult to foresee or detect or have not yet been foreseen or detected. In addition, the Issuer may find that any collateral position is insufficient to cover the respective credit exposure due to, for example, market developments reducing the value of such collateral.

The Issuer's exposure to counterparties in the financial services industry in the normal course of its business is particularly significant. This exposure can arise through trading, lending, clearance and settlement and many other activities and relationships. These counterparties include brokers and dealers, commercial banks, investment banks and other institutional market participants. The Issuer is exposed to the credit risk of any contractual counterparty which may crystallise in the event of a default. The insolvency of any counterparty may impair the effectiveness of the Issuer's hedging and other risk management strategies and, to the extent the Issuer has not hedged itself against such credit risk, is likely to have a negative effect on the Issuer's business, results of operations and financial condition. This may eventually lead to a situation in which the Issuer has to rely on EAA's stakeholders (being the State of North Rhine-Westphalia (**NRW**), the Westfälisch-Lippischer Sparkassen- und Giroverband (**WLSGV**) also known as Sparkassenverband Westfalen-Lippe (**SVWL**), the Rheinischer Sparkassen- und Giroverband (**RSGV**), the Landschaftsverband Rheinland (**LVR**) and the Landschaftsverband Westfalen-Lippe (**LWL**) (each an **Indemnifying Person** and together the **Indemnifying Persons**)) to cover its losses and, consequently, its timely payments under the Notes could be adversely affected. In addition, the duty of the Indemnifying Persons to offset losses (*Verlustausgleichspflicht*) as set out in section 7 of the Charter (and certain instruments agreed between each Indemnifying Person and the Issuer which – up to an additional funding ("equity call-in rights"; "*Eigenkapitalziehungsrechte*") in the aggregate amount of Euro 480 million – together aim to prevent the Issuer's equity from falling below a minimum value of Euro 50 million), which is aimed at ensuring the ability of the Issuer to meet its payment obligations at all times, is limited as set out in the

Charter and does not constitute an explicit guarantee by such Indemnifying Persons (as described further in below subsection "*Duty of the Financial Market Stabilisation Fund and of EAA's Stakeholders to Offset Losses (Verlustausgleichspflicht) is not an Explicit Guarantee*"). Moreover, if the already implemented and planned actions to manage liquidity do not lead to the planned funding success, the Issuer's liquidity position and, consequently, its timely payments under the Notes, could be adversely affected.

Furthermore, there is a risk that the Issuer may have to increase its loss provisions in the future as a result of a rise in the number or amount of non-performing financial assets in its portfolio or as a result of applying uniform provisioning policies to the entire asset portfolio of the Issuer.

Any defaults as a result of increased credit risks and increases in loss provisions in excess of existing provisions could have a material adverse effect on the Issuer's business, results of operations and financial condition.

Risks Relating to Disruptions in the Global Credit Markets and Economy

Uncertainty on the pricing of credit risk and concerns about the global economy continue to create difficult conditions in the financial markets on which the Issuer depends when administering distressed and financial assets. Financial markets are generally subject to periods of historic volatility which may impact the Issuer's ability to raise funding in a similar manner, and at a similar cost, to the funding raised since the Issuer's establishment. However, challenging market conditions have resulted in greater volatility but also in reduced liquidity, widening of credit spreads and lack of price transparency in credit markets. The Issuer is particularly exposed to such challenging market conditions as the value of most of its assets have deteriorated from the disruptions in the global credit market. In addition, the financial performance of the Issuer could be adversely affected by a worsening of the general economic conditions in the markets in which it operates (including, but not limited to worsening effects following from the outbreak of COVID-19 (as further described in the subsection entitled "*Pandemic Outbreak of SARS-CoV-2 ("COVID-19")*"). This may eventually lead to a situation in which the Issuer has to rely on the Indemnifying Persons to cover its losses and, consequently, its timely payments under the Notes could be adversely affected. Changes in investment markets, including changes in interest rates, exchange rates and returns from equity, property and other investments, may negatively affect the Issuer's business, results of operations and financial condition.

General Market Risks

The market value of the asset portfolio of the Issuer depends, inter alia, on interest rates, foreign exchange rates, stock prices, credit spreads, index levels, fund prices and commodity prices. Accordingly, changes in interest rates, foreign exchange rates, stock prices, credit spreads, index levels, fund prices and commodity prices may negatively affect the market value of the asset portfolio of the Issuer. This is in particular the case in respect of the derivative portfolio which was transferred with retroactive effect as of 1st January, 2012 (with respect to assets held in Portigon's banking book) and as of 1st July, 2012 (with respect to assets held in Portigon's trading book and assets held in Portigon's banking book acquired by Portigon after 31st December, 2011) from Portigon to the Issuer (also referred to as the **Follow-up Portfolio**). The liabilities comprised funding liabilities and trading book liabilities which has been transferred to EAA as part of the Follow-up Portfolio. It is also difficult to predict changes in economic or market conditions and to anticipate the effects that such changes could have on the Issuer's business, results of operations and financial condition. If any such market risks materialise and result in a material worsening of the Issuer's financial condition, this may eventually lead to a situation in which the Issuer has to rely on the Indemnifying Persons to cover its losses, which could lead to payments under the Notes not being made timely and which, in case the limit for the offset of losses is reached (see the subsection entitled "*Credit Exposure and Increased Loss Provisions*") could have a material adverse effect on the Issuer's business, results of operations and financial condition.

Pandemic Outbreak of SARS-CoV-2 ("COVID-19")

The pandemic outbreak of SARS-CoV-2 first identified in December 2019 has worldwide led to a number of measures aiming at the mitigation of a further expansion of the virus and its associated disease ("**COVID-19**"), such as travel bans, impositions of quarantines and lockdowns, closures of workplaces and other social distancing measures. Some or all of these measures may have a material adverse effect on global markets, the economy in general and on the financial markets in which the Issuer and its counterparties operates. The implications of such outbreaks depend on a number of factors, such as the duration and spread of the respective outbreak as well as the timing, suitability and effectiveness of measures imposed by authorities, the availability of resources, including human, material, infrastructure and financial (e.g., governmental stimulus packages and/or measures introduced by central banks) required to implement effective responses to the respective situation at the international, national and regional level as well as the level of civil compliance with such measures. There is no guarantee that such measures, or a combination thereof, are effective means to combat such an outbreak and the implications resulting therefrom may have material adverse effects on the Issuer and its business and financial situation. Following from this and depending on the duration of the COVID-19 crisis, the ability of the Issuer for refinancing may be negatively impacted and its associated costs may increase. This may be due to various factors like, for instance, rising credit spreads that may impact derivative transactions or limited availability of counterparties with which the Issuer enters into refinancing transactions.

Moreover, the COVID-19 crisis may have an adverse effect on the Issuer in timely pursuing the winding-up of the risk assets and the non-strategic businesses/assets taken over in accordance with its Winding-up Plan (see the subsection entitled "*The Winding-up Plan*"). The materialisation of any of the risks outlined above could each have a material adverse effect on the Issuer's business, results of operations and financial condition.

2. Risks Relating to the Issuer's Financial Condition and Specific Situation

Risk of Changes in the Issuer's Credit Ratings and Actual or Anticipated Changes in its Financial Condition and Results of Operations

Several rating agencies assess whether the Issuer will be able to fulfil its obligations in future and rate its creditworthiness. As a public law entity with partial legal capacity (*teilrechtsfähige Anstalt des öffentlichen Rechts*), the ratings applicable to debt securities issued by the Issuer directly depend on the ratings of the State of North Rhine-Westphalia which the latter has received from Moody's Deutschland GmbH and Fitch Ratings Ireland Limited.

In case the Issuer applies for ratings in connection with its Notes such ratings may (without prior warning) be lowered or withdrawn entirely at any time by the relevant rating agency. A downgrade or the mere possibility of a downgrade of the Issuer's ratings could have material adverse effects on its refinancing costs and its relationship with investors as future issuances of unsecured notes may become significantly more expensive or may not be possible in the targeted amount. In addition, such downgrade or the mere possibility of a downgrade of the Issuer's ratings or actual or anticipated changes in its financial condition or results of operations could negatively affect the market value of any outstanding Notes. If any of the risks described above were to materialise, it would be more difficult for the Issuer to pursue its current financing strategy, which could have material adverse effects on the Issuer's business, results of operations and financial condition.

The Duty of the Financial Market Stabilisation Fund and of EAA's Stakeholders to Offset Losses (Verlustausgleichspflicht) is not an Explicit Guarantee and Holders do not Have a Recourse Right against any of the Indemnifying Persons in Respect of the Obligations under the Notes

While the Financial Market Stabilisation Fund (the **Fund**) (acting through the *Federal Republic of Germany – Finance Agency GmbH (Bundesrepublik Deutschland – Finanzagentur GmbH; (Finanzagentur))* as well as the stakeholders of the Issuer, NRW, SVWL, RSGV, LVR and LWL, are individually liable to EAA and are also liable to the Fund (acting through Finanzagentur) to offset losses incurred by EAA in accordance with section 7 of the Charter, investors should note that such duty of any Indemnifying Person to offset losses (*Verlustausgleichspflicht*) is limited as set out in the Charter and does not constitute an explicit guarantee by such Indemnifying Person for the benefit of EAA's counterparties (see the subsection entitled "*Credit Exposure and Increased Loss Provisions*"). The holders of any Notes to be issued under the Programme should note that they do not have a recourse right against any of the Indemnifying Persons in respect of the obligations of the Issuer under the relevant Notes. As a result, the Issuer's liquidity position and, consequently, its timely payments under the Notes, could be adversely affected and the Issuer may not have sufficient funds to make payments under the Notes.

Dependency on Portigon, Erste Financial Services GmbH (formerly Portigon Financial Services GmbH) and other Parties as Service Providers

Due to the limited resources of the Issuer it is subject to the risk that service providers, advisers and other contractual partners do not meet their obligations to the Issuer. To the extent assets are not effectively transferred from Portigon to the Issuer but the Issuer has assumed the risks thereof, Portigon remains the relevant debtors' primary contact even if it is acting in EAA's name and/or on its account pursuant to the contractual agreements accompanying the transfer of the § 8 Portfolio, the Main Portfolio and the Follow-Up Portfolio from Portigon to the Issuer. Thus, the Issuer depends on Portigon, Erste Financial Services GmbH (formerly Portigon Financial Services GmbH) and other parties as service providers.

Portigon transferred its main servicing relationship with the Issuer with effect as of 1st February, 2014 to Portigon Financial Services GmbH, Düsseldorf (**PFS**). PFS was originally wholly owned by Portigon. The Issuer acquired PFS from Portigon in early 2016. The European Commission consented to the acquisition that supports the operational stability in the ongoing winding-up process undertaken by the Issuer and that fulfils the requirements concerning the sale or dissolution as set out in the European Commission's ruling of 20th December, 2011, obliging Portigon (formerly WestLB) to transfer the servicing relationship with the Issuer to a subsidiary which, according to the ruling, was to be successfully sold by the end of 2016 or, failing such successful sale, was to be dissolved by the end of 2017. Subsequently, PFS changed its name to Erste Financial Services GmbH (**EFS**) and became a wholly owned subsidiary of the Issuer. EFS (formerly: PFS) is a service provider for the servicing of financial portfolios and held a license for rendering financial services until late 2018. Within the scope of a cooperation agreement between the Issuer and EFS, EFS sub-outsourced a large part of the service provision to IBM Deutschland GmbH (**IBM**) with effect from 1st December, 2017. This transaction ensured that the Issuer will continue to have at its disposal all of the services it needs to continue with the wind-up of the assets transferred from the former WestLB. For the time being, EFS remains a subsidiary of the Issuer and will concentrate on service provider management. This function is currently being integrated in the Issuer. On the basis of the outsourcing agreement with EFS, IBM will provide the Issuer with both IT and operational services for loan, securities and derivatives portfolios.

In addition to the above, the EAA Portfolio Advisers GmbH (**EPA**) (now Mount Street Portfolio Advisers GmbH (**MSPA**)) renders advisory services to the Issuer pursuant to a servicing agreement. EPA (now MSPA) was originally established as a wholly owned subsidiary of the Issuer. In line with the Winding-up Plan (as defined below) for the Issuer, EPA (now MSPA) was sold to Mount Street Group in 2017 and EPA subsequently changed its name to Mount Street Portfolio Advisers GmbH. MSPA will continue to provide services to the Issuer.

The Issuer depends on these parties and the services provided by them and there is no guarantee that a substitute for any service provider or contractual partner can be found at all or in the near future that would be willing and able to fulfil the Issuer's needs on economically reasonable terms and in an adequate manner. Further, a substitute servicer may be less effective in this role than any existing servicer.

Moreover, in its strategic vision to optimise and focus its operating model, the Issuer foresees to reduce internal and external service provision requirements to the necessary level, to rebuild the Issuer to essential functions and to obtain the remaining services from specialised service providers. In this regard, the Issuer is currently examining external procurement of various services (including portfolio services and shared services such as finance data and compliance services). These procurement processes may result in replacing one or more of the current service providers of the Issuer by substitute service providers from 2023 onwards. There is no guarantee that a substitute for any of the Issuer's current service providers or contractual partners for the services so to be obtained can be found that would be willing and able to fulfil the Issuer's needs on economically reasonable terms and in an adequate manner. Further, a substitute servicer may be less effective in this role than any existing servicer.

As the Issuer has to rely on services provided due to its limited resources, this could lead to the Issuer suffering unforeseeable disruptions in its efforts to continue with the wind-up of the assets in line with the Winding-up Plan (see the subsection entitled "*The Winding-up Plan*") and may lead to unforeseeable losses.

If any of the risks described above were to materialise, this could have a material adverse effect on the Issuer's business, results of operations and financial condition.

The Assets Transferred to the Issuer May be Subject to Risks and Certain Assets Have Been Transferred only Economically

A large portion of the assets of Portigon have been legally transferred to the Issuer from various branches and subsidiaries of Portigon worldwide. However, a certain portion of these assets has not been legally transferred to the Issuer due to legal, tax, regulatory and/or economic concerns related to a transfer of legal title in such assets. Nevertheless, the Issuer has obtained an economic interest in such assets. Consequently, the Issuer may not be able to fully dispose of such assets and fully depends on Portigon as the legal holder of such assets. As a consequence, the Issuer is exposed to the performance of Portigon's obligations in respect of any asset not legally transferred to EAA in full (see also the subsection entitled "*Dependency on Portigon, Erste Financial Services GmbH (formerly Portigon Financial Services GmbH) and Other Parties as Service Providers*").

The assets transferred to the Issuer are and may be subject to general risks, including additional taxes or regulatory restrictions that are difficult to foresee or detect or have not yet been foreseen or detected. In the financial year 2020, a provision of Euro 11.2 million was established for legal risks. Furthermore, other risks (e.g. economic, financial or legal) may only be detected in future. If any of these risks were to materialise, this could have a negative impact on the value of the assets transferred and, thus, could have a material adverse effect on the Issuer's business, results of operations and financial condition.

There is no Assurance that the Winding-up Plan Will be Met

The risk assets and the non-strategic businesses/assets taken over by the Issuer must be wound up in accordance with the current winding-up plan (*Abwicklungsplan*) as updated following the transfer of the Follow-up Portfolio to the Issuer (the **Winding-up Plan**). According to the current Winding-up Plan, this is envisaged to occur in 2027.

However, there can be no assurance that the risk assets and the non-strategic businesses/assets taken over by the Issuer can successfully be wound up in accordance with the Winding-up Plan, within the intended winding-up period or at all. The Issuer has made provisions in 2020 totaling Euro 114.5 million (2019: Euro 105.6 million) with the predominant part of the existing provisions being attributable to winding-up activities. Any delay in the intended winding-up period or at all may negatively affect the Issuer's business, results of operations and financial condition.

3. Legal, Regulatory and Tax Risks and Other Risks

Legal Risks

The Issuer is subject to various legal risks in connection with its business. For example, following the transfer of the Follow-up Portfolio the Issuer also assumed contingent liabilities related to potential legal disputes which have been brought or will be brought against Portigon (formerly WestLB) and its affiliated companies.

In connection with dividend arbitrage transactions in the years 2005 to 2008, the former WestLB (now Portigon) paid capital gains tax and interest to the competent tax authorities which may have been unjustifiably credited, but appealed against the corresponding recovery orders. Portigon has also written to the Issuer requesting reimbursement of or release from these expenses, and has filed a corresponding action against the Issuer with the Frankfurt am Main Regional Court (*Landgericht*) for the assessment periods 2005 to 2011, as it believes that, on the basis of the transfer agreements concluded in 2012 by the liable stakeholders within the scope of the refill, the Issuer would assume the risk in this respect. Should the Issuer be held liable to reimburse or release Portigon from its expenses, this may have a material adverse effect on the Issuer's financial situation.

Furthermore, since April 2010, the authorities in the US and in the EU (particularly BaFin) had been investigating possible misconduct in the trading departments of several banks. In connection with the quotations of reference interest rates, the results have not produced any evidence of wrongdoing at the former WestLB (now Portigon); the investigations by BaFin and the US supervisory authorities

were terminated without any measures being undertaken against Portigon. In addition, Portigon together with a large number of banks active in the US was sued in this context in various class action lawsuits in the US for alleged manipulative actions with regard to reference interest rates. Certain aspects of these class actions were repeatedly rejected in the court of first instance also with respect to Portigon. Some plaintiffs launched an appeal against this which led in part to a referral back to the court of first instance and in part to an uncertain outcome as things currently stand.

Should any of the aforementioned legal risks materialise, this may have a material adverse effect on the Issuer's business, results of operations and financial condition and may eventually lead to a situation in which the Issuer has to rely on the Indemnifying Persons to cover its losses and, consequently, its timely payments under the Notes could be adversely affected.

The United Kingdom's Withdrawal from the European Union on 31st January, 2020 ("Brexit")

The United Kingdom ("UK") left the European Union effective 31st January, 2020. The UK entered an implementation period during which it negotiated its future relationship with the EU and concluded a free trade agreement known as the UK-EU Trade and Cooperation Agreement (the "TCA"). The TCA, which entered into force at 11:00 p.m. local time on 31st December, 2020 (the implementation period completion day), is principally a free trade agreement in goods. It does not address in any detail a number of areas, including the cross-border provision of services, the passporting of UK and EU financial institutions, the determination of equivalence between EU and UK financial market regulations, or judicial cooperation in civil matters.

The Portfolio of the Issuer consists of a number of assets that are connected to counterparties seated in the UK. In addition, the Issuer is engaged with various counterparties domiciled in the UK (in particular with regard to derivative transactions) in order to support its hedging and risk management strategies. Notwithstanding the conclusion of the TCA by the EU and the UK, and the on-shoring by the UK of EU retained law, there are likely to be changes in the legal rights and obligations of commercial parties across all industries, particularly in the services sector (including financial services) following the UK's exit from the EU. This may have a negative impact on the possibility of the Issuer to continue with its current hedging and risk management strategies and may result in higher costs for the Issuer to pursue its strategies and may have a material adverse effect on the Issuer's business, results of operations and financial condition.

Tax Risks

EAA is subject to risks associated with tax audits, changes to tax legislation or jurisprudence. EAA's business operations are assessed for tax purposes (by EAA and its tax advisers) on the basis of current tax legislation and in light of current case law and administrative practice. If any such tax law or practice changes or the tax positions in respect of the Portfolio and/or the Follow-up Portfolio (including EAA's subsidiaries and participations) changes significantly resulting in material additional tax charges, the Issuer's business, results of operations and financial condition may materially adversely be effected.

Regulatory Risks

The Issuer is not a bank or otherwise licensed financial institution and must not provide or conduct regulated business activities requiring a licence pursuant to the Directive 2006/48/EC of the European Parliament and of the Council of 14th June, 2006 (which has been repealed by Directive 2013/36/EU of the European Parliament and of the Council of 26th June, 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms). It is, however, subject to the limited supervision by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*; the **BaFin**) but is not supervised in a way credit institutions are supervised by BaFin. The Issuer is not licensed or supervised in any jurisdiction outside Germany. This may influence the Issuer's approach to administer its assets and may affect its financial performance. For instance, some jurisdictions may require specific assets (for which the Issuer bears the economic risks) to be held by a credit institution which may negatively impact the Issuer's ability to successfully wind-up such assets in accordance with the Winding-up Plan, within the intended winding-up period or at all (see the subsection entitled "*The Winding-up Plan*"). Changes in existing, or new, government laws and regulations, or enforcement initiatives in respect thereof, in the countries in which the Issuer holds assets may adversely affect the Issuer's ability to manage its assets and may have a material adverse effect on the Issuer's business, results of operations and financial condition.

Risk Factors Relating to the Notes

The risk factors relating to the Notes are presented in the categories below depending on their nature with the most material risk factor presented first in each category:

1. Risks Relating to All Notes to be Issued under the Programme;
2. Risks Relating to the Structure of Certain Types of Notes to be Issued under the Programme; and
3. Other Related Risks.

1. Risks Relating to All Notes to be Issued under the Programme

Liquidity Risks

Application has been made to the Luxembourg Stock Exchange for Notes to be issued under the Programme to be listed on the official list of the Luxembourg Stock Exchange and to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange or on the professional segment of the Regulated Market of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Holders May Face Foreign Exchange Risks

A Holder of Notes denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the Euro, for example, will result in a corresponding change in the Euro value of Notes denominated in a currency other than Euro and a corresponding change in the Euro value of interest and principal payments made in a currency other than Euro in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the euro correspondingly rise, the price of the Notes and the value of interest and principal payments made thereunder expressed in euro falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, Holders may receive less interest or principal than expected, or no interest or principal.

Holders May Face Risks from the U.S. Foreign Account Tax Compliance Act Withholding

While the Notes are in global form and held within CBL or Euroclear (together, the **ICSDs**) or CBF, in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) will affect the amount of any payment received by the ICSDs or CBF. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes are discharged once it has made payment to, or to the order of, the ICSDs or CBF and the Issuer has therefore no responsibility for any amount thereafter transmitted through the ICSDs or CBF and custodians or intermediaries.

Holders May Face Risks from the Implementation of a Financial Transactions Tax

On 14th February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common financial transactions tax.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

The financial transactions tax proposal remains subject to negotiation between the participating EU Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Therefore, it is currently uncertain whether and when the proposed financial transactions tax will be enacted and when it will take effect with regard to dealings in the Notes.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the consequences of the financial transactions tax.

Holders May Face Risks from a Change of the Law Underlying the Notes

The terms and conditions of the Notes are based on German law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to German law (or law applicable in Germany) or administrative practice after the date of this Prospectus which could have a negative impact on certain terms (e.g. the yield of the Notes) and the Holder may suffer a loss.

2. Risks Relating to the Structure of Certain Types of Notes to be Issued under the Programme

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for prospective investors. Set out below is a description of the most common such features:

Holders Are Exposed to Market Price Risks in Relation to the Notes

The development of market prices of the Notes depends on various factors, such as changes of interest rate levels, the policy of central banks, overall economic developments, inflation rates or the supply and demand for the relevant type of Notes. The market price of the Notes may also be negatively affected by an increase in the Issuer's credit spreads, i.e. the difference between yields on the Issuer's debt and the yield of government bonds or swap rates of similar maturity. The Issuer's credit spreads are mainly based on its perceived creditworthiness but also influenced by other factors such as general market trends as well as supply and demand for such Notes. Therefore, any Holder is exposed to the risk of an unfavourable development of market prices of its Notes which materialises if the Holder sells its Notes prior to the final maturity of such Notes. If a Holder decides to hold the Notes until final maturity the Notes will be redeemed at the amount set out in the relevant Final Terms.

Holders of Fixed Rate Notes (including Step-up Notes and Step-down Notes) Are Exposed to the Risk that the Price of Such Notes Falls as a Result of Changes in the Market Interest Rate

A Holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the current interest rate on the capital markets for comparable debt securities of the same maturity (the **Market Interest Rate**). While the nominal interest rate of a Fixed Rate Note as specified in the relevant Final Terms is fixed during the term of such Note, the Market Interest Rate typically changes on a daily basis. As the Market Interest Rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the Market Interest Rate. The same risk applies to Step-up Notes and Step-down Notes if the Market Interest Rates are higher than the nominal interest rates applicable to such Notes. Potential purchasers of Fixed Rate Notes should be aware that movements of the Market Interest Rate could adversely affect the market price of the Notes.

Fixed Rate Notes may also bear an interest rate of zero per cent., in which case no interest will be paid. If a Holder purchases such Note at a price (which term shall include any possible issue surcharge or any provisions, commissions or transactional costs in connection with such purchase) higher than the redemption amount of such Note, the yield of the Note so purchased may be negative and the Holder may suffer a loss.

Holders of Floating Rate Notes Are Exposed to the Risk of Fluctuating Interest Rate Levels

Floating Rate Notes pay a variable amount of interest based on a reference interest rate (such as the Euro Interbank Offered Rate (**EURIBOR**) or the London Inter-bank Offered Rate (**LIBOR**)) or a certain swap rate on specified interest payment dates. Floating Rate Notes tend to be volatile investments. A Holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and, consequently, uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Floating Rate Notes.

Floating Rate Notes may be structured to include caps and/or floors. In such case, their market value may be more volatile than the market value for Floating Rate Notes that do not include these features. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that Holders will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar Floating Rate Notes without a cap.

Specific Risks Arise in Case Floating Rate Notes Are Linked to a "Benchmark" as Reference Interest Rate

Interest rates and indices which are deemed to be "benchmarks" (including LIBOR and EURIBOR and other interest rates and indices) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, to disappear entirely, or to have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8th June, 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the **Benchmarks Regulation**) applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed), and (ii) prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed), unless such benchmark administrators are exempt from the application of the Benchmarks Regulation, such as, for example, central banks and certain public authorities.

Regulation (EU) 2016/1011 as it forms part of the domestic law of the United Kingdom (the **UK**) by virtue of the European Union (Withdrawal) Act 2018 (the **UK Benchmarks Regulation**), among other things, applies to the use of a benchmark in the UK. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if located outside the UK, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of benchmarks, and (ii) prevents certain uses by UK supervised entities of benchmarks of administrators that are not authorised or registered (or, if located outside the UK, not deemed equivalent or recognised or endorsed), unless such benchmark administrators are exempt from the application of the UK Benchmarks Regulation, such as, for example, central banks and certain public authorities.

The Benchmarks Regulation and the UK Benchmarks Regulation, as far as applicable, could have a material impact on any Notes linked to or referencing LIBOR, EURIBOR or any other "benchmark", in particular, if the methodology or other terms of the LIBOR, the EURIBOR or such other "benchmark" are changed in order to comply with the requirements of the Benchmarks Regulation and/or the UK Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the LIBOR, the EURIBOR or such other "benchmark".

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

The euro risk free-rate working group for the euro area has published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. The recommendations provided thus far shall be complemented by additional ones planned for 2021.

It is not possible to predict with certainty whether, and to what extent, LIBOR and EURIBOR or certain other "benchmarks" will continue to be supported going forwards. This may cause LIBOR and EURIBOR and such other "benchmarks" to perform differently than they have done in the past, and may have other consequences which cannot be predicted. Such factors may have the following effects on the relevant "benchmark" (i) discourage market participants from continuing to administer or contribute to the "benchmark", (ii) trigger changes in the rules or methodologies used in the "benchmarks", or (iii) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations could have a material adverse effect on the value or liquidity of, and return on any Notes linked to or referencing a "benchmark".

The terms and conditions of Notes linked to or referencing LIBOR, EURIBOR or any other "benchmark" provide for certain fallback arrangements in the event that a "benchmark" and/or any page on which a "benchmark" may be published (and/or any successor service) becomes unavailable or a Rate Replacement Event in respect of a "benchmark", which is used to determine the rate of interest applicable to such Notes, occurs, including if (1) a "benchmark" ceases to be published for a period of at least ten business days prior to and including the relevant Determination Day, (2) a "benchmark" ceases to be representative or an industry accepted rate for debt market instruments such as, or comparable to, such Notes, (3) public announcements are made by, *inter alia*, administrators, supervisors of administrators, the central bank for the specified currency and/or any insolvency official or resolution authority with jurisdiction over the administrator of a "benchmark" that, *inter alia*, (i) the publication of such "benchmark" will cease permanently or indefinitely, (ii) such "benchmark" has been or will be permanently or indefinitely discontinued, (iii) such "benchmark" will permanently or indefinitely cease to be provided by its administrator, (iv) such "benchmark" will be prohibited from being used, or (v) that a material change of the methodology of calculation of such "benchmark" has occurred or will occur.

As outlined in (2) above, the rate of interest on Notes linked to or referencing LIBOR, EURIBOR or any other "benchmark" may cease to be determined by reference to the original "benchmark" which is used to determine the rate of interest applicable to those Notes, and instead be determined by reference to the Replacement Rate, even if the original "benchmark" continues to be published. Such rate may be lower than the original "benchmark" rate for so long as that "benchmark" continues to be published, and the value of and return on the Notes may be adversely affected.

Such fallback arrangements include the possibility that the rate of interest could be determined by reference to a Replacement Rate, with or without the application of an Adjustment Spread and may include adjustments to the relevant terms and conditions to ensure the proper operation of the Replacement Rate, all as determined by an Independent Adviser or the Issuer. An Adjustment Spread, if applied, may be positive or negative or zero and would be applied with a view to reducing or eliminating, to the extent reasonably practicable, any transfer of economic value between the Issuer and Holders arising as a result of the replacement of a reference interest rate. However, it may not be possible to determine or apply an Adjustment Spread and even if an adjustment is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to the Holders. The use of a Replacement Rate (including with the application of an Adjustment Spread) will still result in any Notes linked to or referencing a "benchmark" performing differently (which may include payment of a lower rate of interest) than they would if such "benchmark" were to continue to apply in its current form.

If, following the occurrence of a Rate Replacement Event, no Replacement Rate, Adjustment Spread or Replacement Rate Adjustments can be determined, the ultimate fallback for the purposes of calculation of the rate of interest for a particular Interest Period will result in the reference interest rate for the last preceding Interest Period being used. This may result in the same rate of interest being applied

to the Notes until their maturity, effectively turning the Notes, which are supposed to pay a floating rate of interest, into debt instruments with a fixed rate of interest.

Due to the uncertainty concerning the availability of Replacement Rates, the involvement of an Independent Adviser, and the potential for further regulatory developments, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

Furthermore, if the rate of interest payable under any Notes referencing or linked to a "benchmark" cannot be determined due to any reason other than a Rate Replacement Event certain fallback provisions will apply with regard to interest determination. The application of these fall-back provisions could result in the same rate of interest being applied to the Notes until their maturity, effectively turning the Notes, which are supposed to pay a floating rate of interest, into debt instruments with a fixed rate of interest.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation, the UK Benchmarks Regulation or the reforms mentioned above in making any investment decision with respect to any Notes referencing a "benchmark".

Specific Risks Arise in Case Floating Rate Notes Are Linked to LIBOR

On 27th July, 2017, the Chief Executive of the UK Financial Conduct Authority (the **FCA**), which regulates the London Interbank Offered Rate (LIBOR), announced that it will no longer persuade or compel banks to submit rates for the calculation of LIBOR to the administrator of LIBOR after 2021 and, on 12th July, 2018, announced that the LIBOR benchmark may cease to be a regulated benchmark under the Benchmarks Regulation. Such announcements indicate that the continuation of LIBOR on the current basis (or at all) cannot and will not be guaranteed after 2021. On 5th March, 2021, the FCA announced that (i) the publication of 24 LIBOR settings (as detailed in the FCA announcements) will cease immediately after 31st December, 2021, (ii) the publication of the overnight and 12-month U.S. dollar LIBOR settings will cease immediately after 30th June, 2023, (iii) immediately after 31st December, 2021, the 1-month, 3-month and 6-month sterling LIBOR settings will no longer be representative of the underlying market and economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consult on requiring the IBA to continue to publish these settings on a synthetic basis, which will no longer be representative of the underlying market and economic reality they are intended to measure, for a further period after the end of 2021), and (iv) immediately after 30th June, 2023, the 1-month, 3-month and 6-month U.S. dollar LIBOR settings will no longer be representative of the underlying market and economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consider the case for using its proposed powers to require IBA to continue publishing these settings on a synthetic basis, which will no longer be representative of the underlying market and economic reality they are intended to measure, for a further period after the end of June 2023).

Investors should consult their own independent advisers and make their own assessment about the potential risks involved in making any investment decision with respect to any Notes referencing LIBOR.

Specific Risks Arise in Case of Inverse/Reverse Floating Rate Notes

Inverse/Reverse Floating Rate Notes have an interest rate equal to a fixed interest rate minus an interest rate based upon a reference interest rate such as EURIBOR or LIBOR. The market values of these Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference interest rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference interest rate not only decreases the interest rate payable under the Notes, but may also reflect an increase in prevailing interest rates, which may further adversely affect the market value of these Notes.

Specific Risks Arise in Case of Zero Coupon Notes

Zero Coupon Notes do not pay interest periodically. They are either issued at a discount from or with a premium to their nominal value or at par. The difference between the redemption price and the issue price constitutes (in the case of Zero Coupon Notes issued at a discount) the income of the Holder or (in the case of Zero Coupon Notes issued with a premium) its loss until maturity and reflects the Market Interest Rate. A Holder of Zero Coupon Notes is exposed to the risk that the price of such Notes falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to changes in the Market Interest Rate than Fixed Rate Notes with a similar maturity. If a Holder purchases such Notes at a price (which term shall include any possible issue surcharge or any provisions, commissions or transactional costs in connection with such purchase) higher than the redemption amount of such Notes, the yield of the Notes so purchased may be negative and the Holder may suffer a loss.

Holders Are Exposed to the Risk of Early Redemption of the Notes by the Issuer

The relevant Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity on one or several dates determined beforehand (the **Optional Call Right**). In addition, the Issuer may have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions of the Notes.

An Optional Call Right is likely to limit the market value of the relevant Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a Holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower yield than expected or even a negative yield, depending on the price at which such Holder purchased its Notes. In addition, the Holders may have to reinvest the funds they receive upon early redemption on less favourable conditions as compared to the original investment.

The Issuer may be expected to exercise its Optional Call Right when its cost of borrowing is lower than the interest rate payable under the relevant Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower interest rate. Potential investors should consider reinvestment risk in light of other investments available at the time when they are deciding whether to invest in the relevant Notes.

It should be noted that the Issuer may exercise any Optional Call Right irrespective of the Market Interest Rates which are relevant on a certain call date.

A Holder is Subject to the Risk of Being Outvoted by a Majority Resolution of the Holders

If the relevant terms and conditions of the Notes provide for resolutions of Holders, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution properly adopted is binding on all Holders, certain rights of such Holder against the Issuer under the relevant terms and conditions of the Notes may be amended or reduced or even cancelled.

The Appointment of a Joint Representative May Restrict a Holder's Right to Pursue and Enforce its Rights under the Conditions

If the relevant terms and conditions of the Notes provide for the appointment of a Joint Representative, either in the relevant terms and conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the relevant terms and conditions against the Issuer, such right passing to the Joint Representative who is then exclusively responsible to claim and enforce the rights of all Holders.

3. Other Related Risks

Credit Ratings May not Reflect All Risks of an Investment in the Notes

Notes to be issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating assigned to other debt securities issued by the Issuer. In addition, the rating may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Any ratings assigned to debt securities of the Issuer as at the date of this Prospectus are not indicative of the future performance of the Issuer's business or its future creditworthiness.

In general, European regulated investors are restricted under the Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16th September, 2009 on credit rating agencies, as amended (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). If the status of the rating agency rating the Notes changes, European regulated investors may no longer be able to use the rating for regulatory purposes and the Notes may have a different regulatory treatment. This may result in European regulated investors selling the Notes which may impact the value of the Notes and any secondary market. The list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

In addition, United Kingdom regulated investors are, in general, restricted under the UK CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the United Kingdom and registered under the UK CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by non-United Kingdom credit rating agencies, unless the relevant credit ratings are endorsed by an United Kingdom credit rating agency or the relevant non-United Kingdom registered credit rating agency is certified in accordance with the UK CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

If the status of the rating agency rating the Notes changes, United Kingdom regulated investors may no longer be able to use the rating for regulatory purposes and the Notes may have a different regulatory treatment. This may result in United Kingdom regulated investors selling the Notes which may impact the value of the Notes and any secondary market.

Risks in Connection with the Amount of Financial Indebtedness which the Issuer May Incur in the Future

There is no restriction on the amount of financial indebtedness which the Issuer may issue which ranks equal to the Notes. Such issuance of further debt may reduce the amount recoverable by the Holders upon winding-up or insolvency of the Issuer and may increase the likelihood that the Issuer defers payments of principal or interest under the Notes.

Risks in Connection with a Decrease of the Creditworthiness of the Issuer

If, for example, because of the materialisation of any of the risks regarding the Issuer, the Issuer is less likely to be in a position to fully perform all obligations under the Notes when they fall due, the market value of the Notes may suffer. In addition, even if the Issuer is not actually less likely to be in a position to fully perform all obligations under the Notes when they fall due, market participants could nevertheless have a different perception. If any of these risks occurs, third parties would only be willing to purchase Notes for a lower price than before the materialisation of the relevant risk. Under these circumstances, the market value of the Notes would decrease.

A decrease of creditworthiness of the Issuer may also be related to changes in accounting standards. New or changed accounting standards may lead to adjustments in the relevant accounting positions of the Issuer. This might lead to a different perception of the market regarding the Issuer's creditworthiness.

Holders Are Subject to General Taxation Risks as a Result of an Investment in the Notes

Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or those of other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Notes. Potential investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Notes. Only these advisers are in a position to duly consider the specific situation of the potential investor. The aforementioned individual tax treatment of the Notes with regard to any potential investor may have an adverse impact on the return which any such potential investor may receive under the Notes.

Interests of Natural and Legal Persons Involved in the Issue or the Offer May Conflict with Holder's Interests

Certain of the Dealers and their affiliates may have engaged, and may in future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer in the ordinary course of business. In addition, in the ordinary course of their business activities, these Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Having taken all reasonable care to ensure that such is the case, Erste Abwicklungsanstalt confirms that the information contained in this Prospectus is, to the best of its knowledge and belief, in accordance with the facts and does not omit anything likely to affect the import of such information.

FORM OF THE NOTES

The Notes will be issued in bearer form. Each Tranche of Notes will initially be in the form of either a temporary global bearer note (the **Temporary Global Note**), without interest coupons, or a permanent global bearer note (the **Permanent Global Note** and, together with the Temporary Global Note, the **Global Notes**), without interest coupons, in each case as specified in the relevant Final Terms, which will be delivered on or prior to the Issue Date of the Tranche:

- (i) if the Global Notes are intended to be issued in new global note (NGN) form, to a (common) safekeeper for Clearstream Banking, S.A., Luxembourg (**CBL**) and/or Euroclear Bank SA/NV (**Euroclear**); or
- (ii) if the Global Notes are not intended to be issued in NGN form, to Clearstream Banking AG (**CBF** and, together with CBL and Euroclear, the **Clearing Systems** and, each, a **Clearing System**) or a depositary or common depositary of the Clearing Systems.

The relevant Final Terms will also specify whether United States Treasury Regulation § 1.163-5(c)(2)(i)(C) or any successor provision in substantially similar form (the **TEFRA C Rules** or **TEFRA C**) or United States Treasury Regulation § 1.163-5(c)(2)(i)(D) or any successor provision in substantially similar form (the **TEFRA D Rules** or **TEFRA D**) are applicable in relation to the Notes or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable. Each Tranche of Notes for which the relevant Final Terms specify TEFRA C will be represented by a TEFRA C Permanent Global Note and each Tranche of Notes for which the relevant Final Terms specify TEFRA D will initially be represented by a TEFRA D Temporary Global Note.

TEFRA D Temporary Global Note exchangeable for TEFRA D Permanent Global Note

If the relevant Final Terms specify the form of the Notes as being "Temporary Global Note exchangeable for Permanent Global Note" and also specify that the TEFRA D Rules are applicable, the Notes will initially be in the form of a Temporary Global Note, without interest coupons, which will be exchangeable for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes (the **Exchange Date**) upon certification as to non-U.S. beneficial ownership. No payments of principal, interest (if any) or any other amounts will be made under the Temporary Global Note prior to such certification of non-U.S. beneficial ownership having been received by the relevant Clearing System and such Clearing System having given a like certification (based on the certifications it has received) to the Fiscal Agent.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note. Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through the relevant Clearing System without any requirement for certification.

Terms and Conditions of the Notes

The Terms and Conditions of the Notes applicable to any Global Note will be attached to such Global Note, all as more fully described in the section entitled "*Issue Procedures*".

Legend concerning United States Persons

In the case of any Tranche of Notes issued in accordance with TEFRA C or TEFRA D, any Global Note will bear a legend to the following effect:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States Holders, with certain exceptions, will not be entitled to deduct any loss on a Note and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Note.

ISSUE PROCEDURES

General

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes. - The blanks/placeholders in the provisions of the terms and conditions set out in the section entitled "*Terms and Conditions of the Notes*" which are applicable to the Notes, shall be deemed to be completed by the information contained in the relevant Final Terms as if such information were inserted in the blanks/placeholders of such provisions.
- Alternative or optional provisions of the terms and conditions set out in the section entitled "*Terms and Conditions of the Notes*" as to which the corresponding provisions in the relevant Final Terms are not completed or which are deleted or specified as being not applicable shall be deemed to be deleted from the terms and conditions set out in the section entitled "*Terms and Conditions of the Notes*" and shall not form part of the Conditions.
- All provisions of the terms and conditions set out in the section entitled "*Terms and Conditions of the Notes*" which are inapplicable to the Notes (including instructions, explanatory notes and text set out in square brackets) shall be deemed to be deleted from the terms and conditions set out in the section entitled "*Terms and Conditions of the Notes*" and shall not form part of the Conditions.

Binding Language of the Conditions

The binding language of the Conditions will be specified in the relevant Final Terms.

[EZB-Fähigkeit der im NGN-Format zu begebenden Schuldverschreibungen beabsichtigt²⁷] *Eurosystem Eligibility of the Notes to Be Issued in NGN Form Intended*

Die Globalurkunde[n] soll[en] in EZB-fähiger Weise gehalten werden.
The Global Note[s] [is] [are] intended to be held in a manner which will allow Eurosystem eligibility.

- Ja
Yes

"Ja" bedeutet, dass die Schuldverschreibungen nach ihrer Begebung bei der gemeinsamen Verwahrstelle (*common safekeeper*) der ICSDs hinterlegt werden. "Ja" bedeutet nicht notwendigerweise, dass die Schuldverschreibungen zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik und für Innertageskredite vom Eurosystem anerkannt werden. Eine solche Anerkennung hängt davon ab, ob die EZB davon überzeugt ist, dass die Zulässigkeitskriterien des Eurosystems erfüllt sind.

"Yes" means that the Notes, after having been issued, will be deposited with a common safekeeper of the ICSDs. "Yes" does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

- Nein
No

Auch wenn am Tag dieser Endgültigen Bedingungen die Angabe "Nein" lautet, können die Schuldverschreibungen dann, wenn sich die Zulässigkeitskriterien des Eurosystems in der Zukunft dergestalt ändern, dass die Schuldverschreibungen diese einhalten können, bei einem ICSD als gemeinsamer Verwahrer (*common safekeeper*) hinterlegt (und auf den Namen eines von einem der ICSDs Beauftragten als gemeinsamer Verwahrer (*common safekeeper*) eingetragen) werden. Dies bedeutet nicht notwendigerweise, dass die Schuldverschreibungen zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik und für Innertageskredite vom Eurosystem anerkannt werden. Eine solche Anerkennung hängt davon ab, ob die EZB davon überzeugt ist, dass die Zulässigkeitskriterien des Eurosystems erfüllt sind.

²⁷ Nur im Fall von Schuldverschreibungen, die im NGN-Format begeben werden, auszufüllen.
To be completed only for Notes issued in NGN form.

While the designation is specified as "No" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper (and registered in the name of a nominee of one of the ICSDs acting as common safekeeper). Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

Der Zinsbetrag wird berechnet, indem der Zinssatz auf die festgelegte Stückelung angewendet wird, dieser Betrag mit dem Zinstagequotienten (wie nachstehend definiert) multipliziert und der hieraus resultierende Betrag auf die nächste Untereinheit der festgelegten Währung gerundet wird, wobei eine halbe Untereinheit aufgerundet wird oder die Rundung ansonsten gemäß der anwendbaren Marktkonvention erfolgt.

([4]) *Default Interest.* If the Issuer fails to redeem the Notes when due, interest shall accrue on the outstanding aggregate principal amount of the Notes from, and including, the due date for redemption to, but excluding, the date of actual redemption of the Notes at the default rate of interest established by law¹. This does not affect any additional rights that might be available to the Holders.

([5]) *Calculation of Amount of Interest.* The Calculation Agent will, on or as soon as practicable after each date at which the relevant Rate of Interest is to be determined, calculate the amount of interest payable under the Notes (the **Amount of Interest**) in respect of the Specified Denomination for the relevant Interest Period. The Amount of Interest shall be calculated by applying the Rate of Interest to the Specified Denomination, multiplying such sum by the applicable Day Count Fraction (as defined below) and rounding the resulting figure to the nearest sub-unit of the relevant Specified Currency, with half of such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

([6]) *Notification of Rate of Interest and Amount of Interest.* The Calculation Agent will cause the Interest Period, the Rate of Interest, the Amount of Interest and the Interest Payment Date for the relevant Interest Period to be notified to the Issuer and to the Holders (in case of a notification to the Holders by publication in the media set out in § 12) and, if required by the rules of any stock exchange on which the Notes are from time to time listed, to such stock exchange, as soon as possible after their determination. Each Amount of Interest and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Diese Bedingungen werden mit Wirkung ab dem relevanten Feststellungstag (einschließlich) durch die Ersatzreferenzzinssatz-Anpassungen geändert (einschließlich einer etwaigen Änderung dieses Feststellungtags, falls die Ersatzreferenzzinssatz-Anpassungen dies so bestimmen). Der Referenzzinssatz ist dann der Ersatzreferenzzinssatz (wie nachstehend definiert) angepasst durch eine etwaige Anpassungsspanne.

Die Emittentin wird den Gläubigern den Ersatzreferenzzinssatz, die etwaige Anpassungsspanne und die Ersatzreferenzzinssatz-Anpassungen unverzüglich nach einer solchen Festlegung durch Veröffentlichung einer Mitteilung in den in § 12 aufgeführten Medien mitteilen. Zur Klarstellung wird festgehalten, dass keine Zustimmung oder Genehmigung seitens eines Gläubigers für die Wirksamkeit des Ersatzreferenzzinssatzes, einer etwaigen Anpassungsspanne und der Ersatzreferenzzinssatz-Anpassungen erforderlich ist.

These Conditions shall be amended by the Replacement Rate Adjustments with effect from (and including) the relevant Determination Day (including any amendment of such Determination Day if so provided by the Replacement Rate Adjustments). The Reference Interest Rate shall then be the Replacement Rate (as defined below) adjusted by the Adjustment Spread, if any.

The Issuer shall notify the Holders by publication of a notification in the media set out in § 12 without undue delay after such determination of the Replacement Rate, the Adjustment Spread, if any, and the Replacement Rate Adjustments. DESCRIPTION OF THE ISSUER

Introduction

Erste Abwicklungsanstalt (**EAA** or the **Issuer**) was formed on 11th December, 2009 with the task of acquiring from WestLB AG (**WestLB**) (now Portigon AG) and its subsidiaries and winding up a portfolio of risk assets (*Risikopositionen*) and non-strategic businesses/assets (*nichtstrategienotwendige Geschäftsbereiche*) that comprised loans, public finance securities, other tradable securities and structured credit products.

The Issuer's legal and commercial name is Erste Abwicklungsanstalt; its formation was entered into the commercial register of the Local Court of Düsseldorf on 23rd December, 2009.

WestLB (operating under the name of Portigon AG (**Portigon**) since 2nd July, 2012) transferred its risk assets and non-strategic businesses/assets to the Issuer in three stages:

On 23rd December, 2009, the first portfolio of structured securities (also referred to as the **§ 8 Portfolio**) was spun off with retroactive effect, for accounting purposes, as of 1st January, 2009. The transaction was effected by way of a spin-off for acquisition (*Abspaltung zur Aufnahme*) pursuant to section 123 (2) no. 1 of the German Reorganisation Act (*Umwandlungsgesetz*) in conjunction with section 8a (8) of the German Act for Establishing a Financial Market and a Economic Stabilisation Fund – Stabilisation Fund Act (*Gesetz zur Errichtung eines Finanzmarkt- und eines Wirtschaftsstabilisierungsfonds – Stabilisierungsfondsgesetz*; the StFG (until 17th July, 2020 abbreviated as **FMSStFG**)).

The second portfolio which consisted in particular of loans, securities, structured securities and equity investments, and liabilities (also referred to as the **Main Portfolio** and, together with the § 8 Portfolio, the **Portfolio**), was transferred to the Issuer and its subsidiaries on 30th April, 2010 with retroactive effect, for accounting purposes, as of 1st January, 2010. The assets and liabilities of the Main Portfolio were transferred partly by a spin-off for acquisition, partly by way of other transfer forms such as sub-participations, asset transfers and guarantees. The spin-offs generated a total of Euro 3.1 billion in equity for EAA.

The aggregate nominal value of the Portfolio as at 1st January, 2010 amounted to approximately Euro 77.5 billion of assets. EAA's capital resources consisted initially of Euro 3.1 billion in equity and guarantees in favour of EAA from its stakeholders the State of North Rhine-Westphalia, the Westfälisch-Lippischer Sparkassen- und Giroverband (also known as Sparkassenverband Westfalen-Lippe), the Rheinischer Sparkassen- und Giroverband, the Landschaftsverband Rheinland and the Landschaftsverband Westfalen-Lippe.

With retroactive effect as of 1st January, 2012 (with respect to assets held in Portigon's banking book) and as of 1st July, 2012 (with respect to assets held in Portigon's trading book and assets held in Portigon's banking book acquired by Portigon after 31st December, 2011) Portigon transferred (economically and/or legally) further risk assets and non-strategic businesses/assets to the Issuer (also referred to as the **Follow-up Portfolio**) which in total comprise all assets held by Portigon, excluding certain assets which have been transferred to Landesbank Hessen-Thüringen Girozentrale (**Helaba**) via a newly established limited partnership, assets which Portigon has disposed of prior to 30th June, 2012, and certain assets remaining at Portigon which Portigon requires for transforming its banking business to a financial servicing business (including all employee-related assets and liabilities to the extent not transferred to Helaba).

The Follow-up Portfolio comprised credit business assets, securities and derivative contracts. The liabilities comprised funding liabilities and trading book liabilities.

EAA's total assets as at 31st December, 2020 amounted to Euro 32.2 billion (31st December, 2019: Euro 37.8 billion). Its business volume, which also includes off-balance sheet items, amounted to Euro 34.1 billion (not incl. subsidiaries) (31st December, 2019: Euro 39.8 billion (not incl. subsidiaries)). The nominal volume of the banking book taken on by EAA (incl. subsidiaries) decreased by 14.7 per cent.¹ and the nominal value of the trading portfolio taken on by EAA decreased by 30.9 per cent.² by 31st December, 2020 in comparison to 31st December, 2019.

Legal Form

EAA is a structurally and financially independent public law entity with partial legal capacity (*teilrechtsfähige Anstalt des öffentlichen Rechts*) operating under the umbrella of the Federal Agency for Financial Market Stabilisation (*Bundesanstalt für Finanzmarktstabilisierung*; the **FMSA**). The EAA is a federal winding-up agency (*Abwicklungsanstalt*) within the meaning of section 8a (1) sentence 1 of the StFG.

The FMSA was acting in the name and on behalf of the German Financial Market Stabilisation Fund (*Sonderfonds für Finanzmarktstabilisierung*; the **Fund**) from the time it was set up by the Federal Republic of Germany until effectiveness of the transfer of its public ownership (*Trägerschaft*) to the Federal Republic of Germany – Finance Agency GmbH (*Bundesrepublik Deutschland – Finanzagentur GmbH* (**Finanzagentur**) (as described below)). The purpose of the Fund is to stabilise the German financial sector. The Fund does not have legal capacity. Decisions on stabilisation measures by the Fund and the administration of the Fund were originally delegated by decree (*Finanzmarktstabilisierungsfonds-Verordnung*) to the FMSA. Pursuant to the law relating to the reorganisation of the tasks of the Federal Agency for Financial Market Stabilisation (*Gesetz zur Neuordnung der Aufgaben der Bundesanstalt für Finanzmarktstabilisierung*; the **FMSANeuOG**) dated 23rd

¹ Calculated on the basis of exchange rates as at 31st December, 2011.

² Calculated on the basis of exchange rates as at 30th June, 2012.

December, 2016, the public ownership (*Trägerschaft*) of the FMSA was transferred to the Finanzagentur with effect as of 1st January, 2018. The Finanzagentur will support the FMSA in fulfilling the tasks assigned to it pursuant to section 8a of the StFG.

As early as 2008, the German Federal Government adopted a comprehensive package of measures to support the financial markets by passing the StFG, thereby creating the Fund. The FMSA started out as a legally dependent public-law association. In 2009, it was transformed into a federal public-law agency with legal personality which reports to the German Federal Ministry of Finance. The FMSA was established in order to manage the Fund and to implement and monitor the Fund's stabilisation measures. The Fund itself does not have legal capacity. Decisions on stabilisation measures by the Fund and the administration of the Fund were delegated by decree (*Finanzmarktstabilisierungsfonds-Verordnung*) to the FMSA. It was acting in the name and on behalf of the Fund. Its goal is and remains the restoration of mutual confidence among banks and the confidence of society at large and business in the financial sector. The Fund has stood ready not only for directly rescuing financial institutions but also for long-term stabilisation by increasing banking institutions' resilience. Banking institutions have been restructured and their business models redefined and reoriented. The founding of winding-up agencies (*Abwicklungsanstalten*) was one of the instruments at the Fund's disposal. The FMSA founded two such winding-up agencies, one of them being EAA.

The assets and liabilities of EAA are kept separate from the assets of other winding-up agencies established by the FMSA and from other assets of the FMSA and the Finanzagentur, respectively.

Establishment and Domicile

EAA was established on 11th December, 2009. Pursuant to EAA's charter as of 11th December, 2009, as last amended on 17th December, 2020 (*Statut*; the **Charter**), EAA was set up for the time period which will be required to wind up the portfolio of risk assets and non-strategic businesses/assets acquired from WestLB and WestLB's subsidiaries. Upon completion of such winding-up, EAA will be dissolved. According to the current winding-up plan (*Abwicklungsplan*) (the **Winding-up Plan**), this is envisaged to occur in 2027.

EAA is registered with the commercial register (*Handelsregister*) of the local court (*Amtsgericht*) of Düsseldorf under HRA 20869. Its registered office is located at Elisabethstraße 65, 40217 Düsseldorf, Federal Republic of Germany; its telephone number is +49 211 91345 780. The Issuer does not maintain any branches.

The Legal Entity Identifier (LEI) of EAA is 7TG4VWERK338227TR435.

The website of the Issuer is www.aal.de. For the avoidance of doubt, any information contained in the aforementioned website (other than the information incorporated by reference in this Prospectus (as described in the section entitled "*Documents Incorporated by Reference*")), does not form part of this Prospectus and has not been scrutinised or approved by the CSSE.

Object and Purpose

According to its Charter, EAA's function is to take over and wind up risk exposures and non-strategic businesses (**Risk Assets**) of WestLB (operating under the name of Portigon AG since 2nd July, 2012) and/or its German or foreign subsidiaries for the purpose of stabilising them and the financial market.

Applicable Legal Framework

In order to achieve its object and purpose, EAA may engage in all types of banking and financial services transactions and all other transactions that directly or indirectly serve its purposes. In this context, EAA may also, to the extent permitted under the applicable law in each case, hold regulated subsidiaries both domestically and abroad.

EAA is, however, neither a financial institution nor a financial services institution within the meaning of the German Banking Act (*Kreditwesengesetz*; the **KWG**), nor a securities services enterprise within the meaning of the German Securities Trading Act (*Wertpapierhandelsgesetz*; the **WpHG**), nor an insurance company within the meaning of the German Insurance Supervision Act (*Versicherungsaufsichtsgesetz*).

Nonetheless, pursuant to its Charter and pursuant to section 8a (5) sentence 2 of the StFG, EAA is subject to certain provisions of the KWG and the WpHG. In particular, EAA is subject to the banking supervision by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*; the **BaFin**) and it must comply with the organisational obligations and restrictions on certain activities imposed by the KWG applicable to banks and financial institutions. EAA is, however, exempted from the regulatory capital and liquidity requirements and the banking licence requirement under the KWG. EAA is also deemed to be an "obliged entity" (*Verpflichteter*) for the purposes of section 2 (1) of the German Money Laundering Act (*Geldwäschegesetz*; the **GwG**).

Share Capital

As at 31st December, 2020, the Issuer's share capital (*Stammkapital*) amounted to Euro 500,000. The Issuer's share capital remains unchanged as at the date of this Prospectus.

Stakeholders

EAA's stakeholders are the State of North Rhine-Westphalia (**NRW**), the Westfälisch-Lippischer Sparkassen- und Giroverband (**WLSGV**) (also known as Sparkassenverband Westfalen-Lippe (**SVWL**)), the Rheinischer Sparkassen- und Giroverband

(RSGV), the Landschaftsverband Rheinland (LVR) and the Landschaftsverband Westfalen-Lippe (LWL). As at 31st December, 2020, the stakeholder structure of EAA was as follows (percentage figures rounded):

EAA's Role in the EAA Group

The EAA Group consists of EAA and its subsidiaries, as set out in the list of shareholdings in note 46 to the annual report 2020.

Such subsidiaries and participations are not consolidated in accordance with section 13 (3) of the Charter and section 8a (1a) of the StFG. EAA is not dependent upon other entities within the EAA Group.

Executive Bodies of EAA

The Issuer's executive bodies are the Managing Board, the Supervisory Board and the Stakeholders' Meeting. The corporate governance of EAA follows the dual system of German corporate law. One body undertakes the management function (the **Managing Board**) and a second body is responsible for overseeing and supervising EAA's management (the **Supervisory Board**). The business address of each of the members of the Managing Board and the Supervisory Board named below is Elisabethstraße 65, 40217 Düsseldorf, Federal Republic of Germany.

Managing Board

The Managing Board manages the business of the Issuer. The members of the Managing Board and their principal activities performed outside the Issuer, if any, are:

Christian Doppstadt

Horst Küpker

Member of the supervisory board of Westdeutsche Spielbanken GmbH

Other than that, the members of the Managing Board do not perform any principle activities outside the Issuer which are significant with respect to the Issuer.

There are no conflicts or potential conflicts of interest between the duties of any member of the Managing Board to the Issuer and such member's private interests or other duties.

Supervisory Board

The Supervisory Board must consult with and advise the Managing Board and supervise its management of operations. It is also responsible for deciding on deviations from the Winding-up Plan, resolutions concerning the annual wind-up report, appointing and removing members of the Managing Board, enacting rules of procedure for the Managing Board, appointing the auditors and adopting the final accounts.

In individual cases, the Supervisory Board may also reserve the right to adopt resolutions on matters of particular significance, even though it might usually be a matter for the Managing Board.

The Supervisory Board consists of 12 members, eleven of which are appointed by the Stakeholders' Meeting. The Finanzagentur acting on behalf of the Fund, delegates one member. NRW nominates five members, SVWL and RSGV each nominate two, and LVR and LWL each nominate one. The Supervisory Board members vote on a chairman and a deputy chairman based on the candidates proposed by NRW. The FMSA has the right to participate in meetings of the Supervisory Board by sending a guest member. Guest members have no right to vote on resolutions, but otherwise have the same rights as the other Supervisory Board members.

The following is a list of the current members of the Supervisory Board:

1. Chairman: Dr. Patrick Opdenhövel, State Secretary in the Ministry of Finance of North Rhine-Westphalia, Düsseldorf
2. Vice Chairman: Joachim Stapf, Senior Assistant Secretary (*Leitender Ministerialrat*) in the Ministry of Finance of North Rhine-Westphalia, Düsseldorf
3. Michael Breuer, President of the Rheinischer Sparkassen- und Giroverband;

11. Klaus Rupprath, Senior Managing Director and Head of Capital Markets of NRW.BANK;
12. Jürgen Wannhoff, Vice President and Member of the Managing Board of the Sparkassenverband Westfalen-Lippe.

The members of the Supervisory Board do not perform any principle activities outside of the Issuer which are significant with respect to the Issuer.

There are no conflicts or potential conflicts of interest between the duties of any member of the Supervisory Board to the Issuer and such member's private interests or other duties.

Stakeholders' Meeting

The Stakeholders' Meeting is made up of the stakeholders. The Stakeholders' Meeting is responsible for appointing the members of the Supervisory Board, adopting the annual financial statements of EAA, approving the actions of the members of the Managing Board and the Supervisory Board in accordance with the Charter and making the decisions otherwise incumbent upon it under the Charter. The Stakeholders' Meeting shall meet as often as is necessary to perform its functions. The Stakeholders' Meeting may dismiss members of the Supervisory Board at any time for good cause.

Conflicts of Interest

It cannot generally be ruled out that the persons involved in an offer or issue of Notes under the Programme, irrespective of whether they are individuals or legal entities, have interests in the offer or issue. Whether this is the case will depend upon the facts at the time of the offer or issue. A description of any interests, including any conflicting interests, that are of importance to an offer or issue of Notes will be included in the relevant Final Terms, specifying the persons involved and the types of interests. As at the date of this Prospectus, EAA is not aware of any such conflicts of interests.

Regulatory Supervision of the Issuer

EAA is not a credit institution within the meaning of the KWG, is not regulated accordingly and does not conduct business that requires licences pursuant to EU Directive 2006/48/EC of the European Parliament and of the Council of 14th June, 2006 (which has been repealed by Directive 2013/36/EU of the European Parliament and of the Council of 26th June, 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms), or pursuant to MiFID II.

EAA is, however, supervised by the FMSA (control of legality) and, to a limited extent, the BaFin (supervisory control).

The FMSA is a public law agency with full legal capacity which is directly under governmental control of the Federal Ministry of Finance. FMSA's supervision of EAA ensures, in particular, that EAA, including its governing bodies and the stakeholders, complies with the relevant statutory requirements and its Charter. In order to perform its supervisory function, the FMSA has certain information rights, control rights, auditing rights and rights of instruction set forth in EAA's Charter. The FMSA monitors and checks compliance with EAA's accounting and disclosure duties. In addition, the FMSA may reserve the right to carry out special audits, particularly audits to assess compliance with the requirements applicable to EAA's operations and implementation of the Winding-up Plan. The FMSA may give instructions to EAA's Managing Board, Supervisory Board and Stakeholders' Meeting as well as to individual stakeholders in order to ensure that EAA's activities remain in compliance with the law and EAA's Charter. While the public ownership (*Trägerschaft*) of the FMSA was transferred to the Finanzagentur with effect as of 1st January, 2018 pursuant to the FMSANeuOG, EAA continues to be supervised by the FMSA (control of legality; *Rechtsaufsicht*). The Finanzagentur will support the FMSA in fulfilling the tasks assigned to it pursuant to section 8a of the StFG.

The purpose of BaFin's supervision is to ensure that EAA complies with such statutory provisions of the KWG, WpHG and GwG which are applicable to it pursuant to EAA's Charter and pursuant to section 8a (5) sentence 2 of the StFG, particularly that it establishes a proper business structure and that it does not conduct any transactions which it is not entitled to conduct pursuant to its Charter. BaFin has rights to obtain information and to conduct audits. It is authorised to give instructions to EAA and the Managing Board and its members that are appropriate and necessary to avoid or eliminate irregularities or shortcomings and to prevent infringements of the provisions of the KWG, the WpHG and the GwG applicable to EAA. In particular, the BaFin may require the dismissal of members of the Managing Board in the case of negligent and continuous infringements.

Instruments Issued by the Fund and by EAA's Stakeholders to Ensure a Minimum Equity Level at EAA

The Fund (acting through FMSA until 31st December, 2017 and acting through Finanzagentur since 1st January, 2018) as well as the stakeholders NRW, SVWL, RSGV, LVR and LWL have individually entered into so-called "instruments" with EAA in respect of EAA's capital level. Each instrument allows EAA to activate under certain circumstances (*inter alia*, after having submitted to the relevant instrument issuer a notice as set out in the respective instrument) – up to the maximum amounts set out below – an equity receivable against the respective instrument's issuer in EAA's balance sheet. The trigger for activation of such instruments is that in EAA's annual accounts, semi-annual or quarterly reports the level of equity would fall below an amount of Euro 50 million. In such case, EAA is entitled to activate that portion of the instruments which allows EAA to show an equity level of Euro 50 million in its respective annual accounts, semi-annual or quarterly reports. A deactivation automatically occurs when (and to the extent that) in EAA's following annual accounts, semi-annual or quarterly reports the level of equity exceeds Euro 50 million. Alternatively, EAA may under certain circumstances request the payment of the required equity amounts. A repayment of such equity funds only becomes due if the level of equity exceeds Euro 60 million (but then in the amount of equity exceeding the Euro 50 million equity level).

The instruments are arranged in two tiers. In tier one, the stakeholders make available the following amounts:

- NRW: up to Euro 72,500,000;
- RSGV: up to Euro 37,500,000;
- SVWL: up to Euro 37,500,000;
- LVR: up to Euro 1,250,000;
- LWL: up to Euro 1,250,000.

In tier two, the Fund makes available up to Euro 330,000,000, which can only be drawn if all tier one instruments have been utilised in full or the tier one instruments would be insufficient to preserve EAA's capital level. All instruments will cease to exist on 31st December, 2028, whereas any portions activated at the time of adoption of EEA's final accounts will permanently remain with EAA.

Duty of the Fund and EAA's Stakeholders to Offset Losses (*Verlustausgleichspflicht*)

The Fund (acting through Finanzagentur) as well as the stakeholders NRW, SVWL, RSGV, LVR and LWL (each an **Indemnifying Person**) are individually liable to EAA and the stakeholders NRW, SVWL, RSGV, LVR and LWL are also individually liable to the Fund (acting through Finanzagentur) to offset all losses incurred by EAA in accordance with section 7 of the Charter. This obligation to offset losses is arranged in four tiers as follows:

In the first tier, SVWL, RSGV, NRW, LVR and LWL are individually responsible for a portion of a total amount of Euro 850,000,000 as follows (each individually limited to the amount stated below):

- SVWL: 25.0500 % max. Euro 213,000,000
- RSGV: 25.0500 % max. Euro 213,000,000
- NRW: 48.2000 % max. Euro 409,500,000
- LVR: 0.8500 % max. Euro 7,250,000
- LWL: 0.8500 % max. Euro 7,250,000

In the second tier, SVWL, RSGV, NRW, LVR, LWL and the Fund are individually responsible for a portion of a total additional amount of Euro 2,670,000,000 as follows (each individually limited to the amount stated below):

- SVWL: 18.72659 % max. Euro 500,000,000
- RSGV: 18.72659 % max. Euro 500,000,000
- NRW: 36.14981 % max. Euro 965,200,000
- LVR: 0.65169 % max. Euro 17,400,000
- LWL: 0.65169 % max. Euro 17,400,000
- Fund: 25.09363 % max. Euro 670,000,000

In the third tier, SVWL, RSGV and NRW are individually responsible for a portion of a total additional amount of Euro 6,000,000,000 as follows (each individually limited to the amount stated below):

- SVWL: 24.99166 % max. Euro 1,499,500,000
- RSGV: 24.99166 % max. Euro 1,499,500,000
- NRW: 50.01668 % max. Euro 3,001,000,000

Also, in case SVWL or RSGV were to fail to fulfil their respective obligations, NRW will assume these obligations from any of the aforementioned tiers *vis-à-vis* EAA.

In the fourth tier, NRW assumes 50 per cent. of any excess amounts while the remaining 50 per cent. will be shared between NRW and the Fund (internal allocation to be agreed based on the StFG).

Also, in case SVWL or RSGV were to fail to fulfil their respective obligations, NRW will assume these obligations *vis-à-vis* EAA.

In order to satisfy its respective obligation to offset losses, each Indemnifying Person has an obligation to provide EAA with such amounts at such times as are necessary in order to ensure that EAA is always in a position to meet its liabilities upon first demand even after the liquid asset component of its equity has been used up. This obligation of each Indemnifying Person is

subject to the liability quota and caps as set out in section 7 of the Charter. EAA must assert its claim against any Indemnifying Person to have its losses offset in the amount necessary and at a time sufficiently prior to any imminent insolvency so as to ensure that EAA is always in a position to pay its debts as and when they fall due.

The obligation of an Indemnifying Person to offset losses pursuant to the provisions of EAA's Charter falls due when it receives a request for funds from EAA's Managing Board (**payment request**). The payment request must detail the total amount requested, the amount apportioned to each Indemnifying Person, and include a statement by EAA's Managing Board that, based on its best judgment, the Managing Board deems the payment request to be necessary in order to ensure EAA's ability to meet its existing liabilities at all times. Each Indemnifying Person must pay to EAA the amount apportioned to it upon first demand without undue delay, however no later than seven banking days after receipt of the payment request.

The Indemnifying Persons may only offset counter-claims against EAA's claim to have its losses offset to the extent that such counter-claims have been confirmed in a final and binding judgment or explicitly acknowledged by EAA. This principle also applies to the assertion of any right to withhold performance/right of retention.

The Indemnifying Persons have no right to claim repayment of the funds paid by them in order to offset losses.

The duty to offset losses on the part of SVWL and RSGV is capped at a total amount of Euro 4.5 billion. This cap may not be increased at any time, nor may any obligation to increase the cap be imposed, regardless of the legal grounds. The above cap will be reduced by all payments made by SVWL/RSGV under their duty to offset losses.

The duty to offset losses on the part of LVR and LWL is capped at a total amount of Euro 51,800,000. This cap may not be increased at any time, nor may any obligation to increase the cap be imposed, regardless of the legal grounds. The above cap will be reduced by all payments made by LVR/LWL under their duty to offset losses.

The duty of the Indemnifying Persons to offset losses (*Verlustausgleichspflicht*) does not constitute an explicit guarantee by the Indemnifying Persons for the benefit of EAA's counterparties, i.e. the holders of any Notes to be issued under the Programme will not have a recourse right against the Indemnifying Persons.

Principal Activities and Winding-up Plan

EAA's principal activity is to wind up a portfolio of risk assets and non-strategic businesses/assets that have been transferred to it from Portigon and Portigon's subsidiaries. Assets have been either effectively transferred to EAA or EAA has assumed the risk of assets, which were declared to be subject to a transfer but had to remain with Portigon. EAA conducts its transactions in accordance with economic principles having regard to its winding-up objectives and the principle of risk minimisation.

After its establishment, EAA used Portigon pursuant to a cooperation agreement as service provider for relevant business activities. To the extent assets are not effectively transferred to EAA but EAA has assumed the risk thereof, Portigon remains the relevant debtors' primary contact even if it is acting in EAA's name and/or on its account. For this purpose, Portigon had established an organisational unit (the **Portfolio Exit Group**) dedicated to EAA's asset portfolio and client relationships, which was separated from other Portigon departments by information barriers to avoid potential conflicts of interest.

In 2014, 70 employees of the Portfolio Exit Group were transferred from Portigon to EAA. Having provided services to the winding-up agency since 2010, on 1st July, 2014, they began work for EAA Portfolio Advisers GmbH (**EPA**) (now Mount Street Portfolio Advisers GmbH (**MSPA**)), which is headquartered in Düsseldorf and also operates in London and New York and originally was a specially formed EAA subsidiary. In line with its Winding-up Plan, EAA sold EPA (now MSPA) to Mount Street Group in 2017 and EPA subsequently changed its name to Mount Street Portfolio Advisers GmbH. MSPA continues to render advisory services to the Issuer pursuant to a servicing agreement.

Portigon had transferred its rights and obligations under the cooperation agreement with effect as of 1st February, 2014 to Portigon Financial Services GmbH, Düsseldorf (**PFS**) (now Erste Financial Service GmbH (**EFS**)). EFS is a service provider for the servicing of financial portfolios, which held a license for rendering financial services until late 2018. In 2015, PFS (now EFS) was wholly owned by Portigon. In early 2016, the Issuer acquired PFS (now EFS) from Portigon. Within the scope of a cooperation agreement between the Issuer and EFS, EFS sub-outsourced a large part of the service provision to IBM Deutschland GmbH (**IBM**) with effect from 1st December, 2017. This transaction ensured that the Issuer will continue to have at its disposal all of the services it needs to continue with the wind-up of the assets transferred from the former WestLB (now: Portigon). For the time being, EFS remains a subsidiary of the Issuer and will concentrate on service provider management. This function is currently being integrated in the Issuer. On the basis of the outsourcing agreement with EFS, IBM provides the Issuer with both IT and operational services for loan, securities and derivatives portfolios.

The risk assets and the non-strategic businesses/assets taken over by EAA must be wound up in accordance with the Winding-up Plan. The Winding-up Plan is a special form of business plan with a view to minimising losses. The Managing Board, the Supervisory Board, the Stakeholders' Meeting and EAA's stakeholders are bound by the Winding-up Plan. The Winding-up Plan describes the winding-up measures intended to be taken by EAA and includes a timeline for full liquidation of EAA's risk assets and non-strategic businesses/assets within a reasonable winding-up period. The Winding-up Plan shall ensure the solvency of EAA at all times during the entire winding-up period, notwithstanding the stakeholders' duty to offset losses. The Winding-up Plan also honours the principle of minimising losses. The FMSA has the right to instruct EAA and the stakeholders as to the specific information to be included in any update of the Winding-up Plan.

Funding Activities

As part of the transfer of the Portfolio and the Follow-up Portfolio EAA has also assumed a number of instruments by which Portigon has managed its funding activities.

The funding of EAA will have to be periodically refinanced as instruments expire. To replace expiring funding for the risk assets and non-strategic businesses/assets acquired, EAA will, in particular, issue debt securities and/or take out bank loans. Derivatives transactions are employed to hedge against, in particular, interest and exchange rate risks. EAA will also issue, among other instruments, unsecured bonds and raise short-term funds on the financial market.

Due to regulatory restrictions, EAA is not entitled to engage in deposit taking towards the general public, accordingly it is not allowed, among other things, to issue debt securities to the general public. Rather, EAA is allowed to issue debt securities to the European Central Bank, any other central bank or certain institutional investors (such as banks, insurers or other entities or persons which are regularly engaged in or established for the purposes of making, purchasing or investing in loans, securities or other financial assets) only. The current level of EAA's annual funding volume may decrease in accordance with the continuing winding-up process of the Portfolio and the Follow-up Portfolio.

Ratings

The following short-term and long-term ratings have been assigned by Moody's Deutschland GmbH (**Moody's**), S&P Global Ratings Europe Limited (**Standard & Poor's**) and Fitch Ratings Ireland Limited (**Fitch**):

	Short-Term Ratings		Long-Term Ratings	
	of the Notes	of the Issuer	of the Notes	of the Issuer
Moody's	P-1	P-1	Aa1	Aa1 (stable outlook)
Standard & Poor's	Not Applicable	A-1+	Not Applicable	AA (stable outlook)
Fitch	F1+	F1+	AAA	AAA (stable outlook)

Short-term issues are obligations with an original maturity of less than 365 days. Short-term issuer ratings are opinions of an issuer's capacity to meet short-term financial obligations. Long-term issues are obligations with an original maturity of one year or more. Long-term issuer ratings are opinions of the ability of entities to meet long-term senior unsecured financial obligations and contracts.

Each of Moody's, Standard & Poor's and Fitch has been established in the European Union, has been registered with the relevant competent authority under Regulation (EC) No. 1060/2009, as amended (the **CRA Regulation**) and is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (www.esma.europa.eu) in accordance with the CRA Regulation.

The rating Moody's has given to the Issuer is endorsed by Moody's Investors Service Ltd, which is established in the United Kingdom and registered under Regulation (EU) No 1060/2009, as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the **UK CRA Regulation**).

The rating Standard & Poor's has given to the Issuer is endorsed by S&P Global Ratings UK Limited, which is established in the United Kingdom and registered under the UK CRA Regulation.

The rating Fitch has given to the Issuer is endorsed by Fitch Ratings Ltd, which is established in the United Kingdom and registered under the UK CRA Regulation.

The ratings of the Notes address the ability of the Issuer to make payments due in respect of Notes in the event that an event of default occurs. They do not address the probability of an event of default actually occurring.

Notes to be issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating set out above.

A security rating is not a recommendation to buy, hold or sell securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Financial Statements and Annual Reports

The first financial year of EAA was a short financial year which commenced on 11th December, 2009 and ended on 30th June, 2010. The second financial year of EAA was also a short financial year which commenced on 1st July, 2010 and ended on 31st December, 2010. As of 1st January, 2011, the financial year of EAA corresponds with the calendar year. The Managing Board of EAA prepares an annual report within the first three months of each financial year.

Auditors

The statutory auditor of EAA is PricewaterhouseCoopers GmbH Wirtschaftsprüfungsgesellschaft, Moskauer Straße 19, 40227 Düsseldorf, Federal Republic of Germany (**PwC**). PwC has audited the Issuer's financial statements as of, and for the financial years ended on, 31st December, 2019 and 31st December, 2020 in accordance with German generally accepted auditing standards and issued an unqualified auditor's report (*Bestätigungsvermerk*) in each case. PwC is a member of the German Chamber of Public Accountants (*Wirtschaftsprüferkammer*).

Employees

As of 31st December, 2020, the number of employees of EAA was 130.

Legal and Arbitration Proceedings

EAA and its affiliated companies are involved in a number of legal disputes which are being dealt with either in court or out-of-court in Germany and abroad concerning certain risk assets and non-strategic businesses/assets which Portigon and Portigon's subsidiaries have transferred to EAA.

Following the transfer of the Follow-up Portfolio the Issuer also assumed contingent liabilities related to potential legal disputes which have been brought or will be brought against Portigon and its affiliated companies.

In connection with dividend arbitrage transactions in the years 2005 to 2008, the former WestLB (now Portigon) paid capital gains tax and interest to the competent tax authorities which may have been unjustifiably credited, but appealed against the corresponding recovery orders. Portigon has also written to the EAA requesting reimbursement of or release from these expenses, and has filed a corresponding action against the EAA with the Frankfurt am Main Regional Court (*Landgericht*) for the assessment periods 2005 to 2011, as it believes that, on the basis of the transfer agreements concluded in 2012 by the liable stakeholders within the scope of the refill, the EAA would assume the risk in this respect. Following a detailed assessment of the asserted claim, EAA considers this claim to be unfounded on the basis of the information available to it and with the assistance of external legal advisors. In its statement of defence, the EAA requested that the action be dismissed. It will continue to defend itself against a claim by Portigon.

Since April 2010, the authorities in the US and in the EU (particularly BaFin) had been investigating possible misconduct in the trading departments of several banks. In connection with the quotations of reference interest rates, the results have not produced any evidence of wrongdoing at the former WestLB (now: Portigon); the investigations by BaFin and the US supervisory authorities were terminated without any measures being undertaken against Portigon. In addition, Portigon together with a large number of banks active in the US, was sued in this context in various class action lawsuits in the US for alleged manipulative actions with regard to reference interest rates. Certain aspects of these class actions were repeatedly rejected in the court of first instance also with respect to Portigon. Some plaintiffs launched an appeal against this, which led in part to a referral back to the court of first instance and in part to an uncertain outcome as things currently stand. It is currently impossible to predict when an appeal decision will be issued and whether it will confirm the previous first-instance decisions. The court of first instance has yet to make a final ruling.

In addition, the Issuer was exposed to the risk of claims for damages by investors in respect of various swap transactions especially with municipalities. In a decision of the German Federal Supreme Court (*Bundesgerichtshof; BGH*) on spread ladder swaps dated 22nd March, 2011 (the **Spread Ladder Swap Judgment**), the BGH ruled that banks are obliged, under certain circumstances, to disclose an initial negative market value of a transaction (on the basis of reflected costs and the bank's margin). If such disclosure is not made, the bank can be held liable for any damages resulting from such lack of disclosure in respect of its investment advice to its investors. This precedent Spread Ladder Swap Judgment has since led to numerous legal proceedings against banks active in the German market (including WestLB, now: Portigon) and EAA, with inconsistent decisions. The Issuer has achieved settlements in all of its legal disputes arising from the aforementioned derivatives transactions with municipalities.

Other than the proceedings described in this section, so far as the Issuer is aware, there have been no governmental, legal or arbitration proceedings (including any pending proceedings) during the last twelve months which may have, or have had, in the recent past, a material adverse effect on the Issuer's business or financial conditions.

No Significant or Material Adverse Change

There has been no significant change in the financial position or in the financial performance of the EAA Group and there has been no material adverse change in the prospects of EAA since 31st December, 2020, the date of EAA's last published audited financial statements.

Material Contracts

EAA has entered into the following material contracts which could have an impact on the Issuer's ability to meet its obligations to Holders in respect of the Notes to be issued by EAA pursuant to the Programme:

EAA has entered into a total of six spin-off agreements pursuant to which it has acquired risk assets and non-strategic businesses/assets from Portigon and certain of Portigon's subsidiaries. The first spin-off agreement was entered into by EAA and WestLB (now: Portigon) in December 2009 with regard to the § 8 Portfolio. In connection with the transfer of the Main Portfolio, EAA and WestLB (now: Portigon) entered into two additional spin-off agreements. The fourth spin-off agreement was made between EAA and Westdeutsche ImmobilienBank AG (**WIB**), one of WestLB's subsidiaries, pursuant to which WIB

transferred loans and other liabilities to EAA. The fifth and sixth spin-off agreements were made between EAA and Portigon in 2012 in respect of the Follow-up Portfolio. Under each of the six spin-off agreements entered into in connection with the transfer of the § 8 Portfolio, the Main Portfolio and the Follow-up Portfolio, EAA is obliged to make a compensation payment (*Ausgleichszahlung*) to the relevant transferor.

In connection with the transfer of the Main Portfolio and the Follow-up Portfolio and due to legal implications in certain foreign jurisdictions which impose restrictions on the transfer of assets by way of spin-off, EAA also entered into five sub-participation agreements with WestLB (now: Portigon), WIB and WestLB Europa Holding GmbH (**WEH**). Under such sub-participation agreements, EAA, in return for a certain consideration payment, acquired the economic but not the legal title to certain assets belonging to the Main Portfolio as well as the Follow-up Portfolio. Portigon, WIB and WEH remain the holders of title to all rights and obligations in connection with the assets which are the subject of such sub-participation agreements but will hold the assets on trust for EAA. Pursuant to section 8a (9) of the StFG, sections 16 to 18 and section 20 of the German Act for the Acceleration and Simplification of the Acquisition of Shares in and Risk Positions of Enterprises of the Financial Sector by the Fund "Financial Market Stabilisation Fund – **FMS**" and of the Real Economy by the Fund "Economic Stabilisation Fund – **WSF**" – Economic Stabilisation Acceleration Act (*Gesetz zur Beschleunigung und Vereinfachung des Erwerbs von Anteilen an sowie Risikopositionen von Unternehmen des Finanzsektors durch den Fonds "Finanzmarktstabilisierungsfonds – FMS" und der Realwirtschaft durch den Fonds "Wirtschaftsstabilisierungsfonds – WSF"* (*Wirtschaftsstabilisierungsbeschleunigungsgesetz – WStBG*)) apply to such transfer. EAA bears the economic risk of such assets.

Pursuant to a transfer agreement entered into by EAA and WestLB International SA, EAA also acquired assets of the Main Portfolio from WestLB International SA by way of an asset deal for a certain purchase price.

In connection with the transfer of the Follow-up Portfolio and due to legal implications in certain foreign jurisdictions which impose restrictions on the transfer of assets by way of spin-off, EAA also entered into two risk transfer agreements with Portigon. Under the risk transfer agreements, EAA assumes the economic benefits and risks but legal title remains with Portigon in respect of two derivatives portfolios. One derivative portfolio consists of exchange traded derivatives and the other comprises over-the-counter (OTC) derivatives. Portigon remains the holder of title of all rights and obligations in connection with the derivatives which are the subject of the risk transfer agreements but will hold such rights and obligations in trust for EAA. Pursuant to section 8a (9) of the StFG, sections 16 to 18 and section 20 of the WStBG apply to such transfer. EAA bears the economic risk of such assets.

In relation to those assets of the Main Portfolio and the Follow-up Portfolio for which neither a transfer by way of spin-off nor by way of sub-participation nor by way of a risk transfer was possible or opportune, EAA granted various guarantees in favour of Portigon. Under such guarantees, EAA is obliged to compensate Portigon for any losses incurred in connection with the underlying assets. In return, EAA is entitled to receive guarantee fees under such guarantee agreements.

Recent Developments and Outlook

The Issuer's earnings situation in the 2020 financial year was marked by net interest income of Euro 58.0 million, a net fee and commission expenditure of Euro 18.4 million and a net trading result of Euro 3.2 million. General and administrative expenses were Euro 125.0 million. In total, EAA reported a net loss for the 2020 financial year of Euro 1.9 million. The Issuer is sticking with its strategy of winding up in a value-preserving manner. Further losses cannot be ruled out in the next few fiscal years because of the now substantial reduction of the portfolio and the associated decline in income from ongoing operations. This possibility is taken into account in the Issuer's wind-up planning.

In 2021, EAA aims to wind-up around 10 per cent. of the nominal value of the banking book portfolio, which gives a target of below Euro 12 billion as at 31st December, 2021 (including exposures held by subsidiaries). In 2021, EAA expects a reduction of the nominal value of the trading portfolio of more than 20 per cent. compared to 2020, which gives a target of a mid-double-digit billion range Euro amount as at 31st December, 2021.

EAA had concluded the sales process for Erste EAA Ireland plc (formerly EAA Covered Bond Bank plc) (**EAA Ireland**) at the beginning of 2017. The Supervisory Board of EAA approved the sale to the investor that submitted the most financially advantageous offer for EAA in a non-discriminatory bidding process. On this basis, a share purchase agreement for EAA Ireland was signed. The completion of the sale was subject to approval of the competent supervisory authorities. The investor has informed EAA that the competent supervisory authorities would only approve the transfer subject to additional conditions. In view of the changed circumstances, the parties have terminated the share purchase agreement on 27th March, 2020 and discontinued the sale of EAA Ireland. EAA will continue to manage the orderly wind-down of the balance sheet of EAA Ireland in order to greatly limit any negative financial consequences for the Winding-up Plan that may occur to a certain extent due to the discontinuation of the sale of EAA Ireland. After the sales process could not be successfully completed, preparatory steps were taken to accelerate the winding-up of EAA Ireland. Moreover, EAA Ireland was notified by the European Central Bank on 11th March, 2021 that its full banking licence and its licence as a so-called designated credit institution would be revoked effective 12th March, 2021 in accordance with its application.

EAA focuses on the parameters and targets of its Winding-up Plan and continues to consider options and alternative scenarios for an efficient winding-up of its portfolios. The Issuer fundamentally pursues an opportunistic approach by conducting regular analyses of market conditions and exit opportunities in order to assess early and profitable wind-up opportunities for all positions of the portfolio. The Issuer is currently in the process of examining whether the targets of the Winding-up Plan may be achieved earlier than initially expected. In line with the options envisaged by the FMSANeuOG, federal winding-up agencies within the meaning of section 8a (1) sentence 1 of the StFG may act as a transferor in future spin-off or split-off scenarios,

subject to further conditions as set out in section 8a (8a) and section 8a (8b) of the StFG (as amended by the FMSANeuOG). EAA has amended its Charter with a view to the aforementioned conditions and in particular the requirements set out in section 8a (8a) sentence 1 no. 4 of the StFG. While it cannot be ruled out that certain assets of EAA may be subject to such spin-off or split-off scenarios, it should be noted that section 8a (8a) of the StFG explicitly exempts refinancing liabilities from such scenarios.

In its strategic vision to optimise and focus its operating model, EAA foresees to reduce internal and external service provision requirements to the necessary level, to rebuild EAA to essential functions and to obtain the remaining services from specialised service providers. In this regard, EAA is currently examining external procurement of various services (including portfolio services and shared services such as finance data and compliance services). These procurement processes may result in replacing one or more of the current service providers of EAA by new service providers from 2023 onwards.

USE OF PROCEEDS

Generally, the net proceeds from each issue of Notes will be applied by the Issuer for its general corporate purposes, which include refinancing its assets and hedging certain risks.

SUBSCRIPTION AND SALE

The Dealers have, in a programme agreement dated 7th May, 2021 (as amended and supplemented from time to time, the **Programme Agreement**) agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated in the sections entitled "*Form of the Notes*" and "*Terms and Conditions of the Notes*". In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

A. General

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it will offer, sell and deliver or otherwise convey the Notes only to the European Central Bank, any other central bank or institutional investors such as banks, insurers or other entities or persons which are regularly engaged in or established for the purposes of making, purchasing or investing in loans, securities or other financial assets, and not to the general public.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it will (to the best of its knowledge and belief) comply with all applicable laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Prospectus or any offering material and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries of Notes and neither the Issuer nor any other Dealer shall have any responsibility therefor.

Neither the Issuer nor any of the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder or assumes any responsibility for facilitating such sale.

B. United States

The Notes have not been and will not be registered under the Securities Act. Except in certain transactions exempt from the registration requirements of the Securities Act, the Notes may not be offered, sold or delivered within the United States or to or for the account or benefit of U.S. persons (as defined in Regulation S under the Securities Act (**Regulation S**)). Terms used in this paragraph have the meaning given to them by Regulation S.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that, except as permitted by the Programme Agreement it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of an identifiable tranche of which such Notes are a part within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each Dealer to which it sells Notes during the distribution compliance period a confirmation or other notice setting out the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of the Notes of the Tranche of which such Notes are a part, an offer or sale of the Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

The Issuer is not authorised under the Banking Act 1959 (Cth) (the **Australian Banking Act**) to carry on banking business and is not subject to prudential supervision by the Australian Prudential Regulation Authority.
